▲
Elderly people don't need to learn how to use the controller. They can simply select options with touchpad.

Marathon Kit

Replaceable Battery, Charging Dock, DC Supply

Package Design & User manual

Optional TWS Earbuds

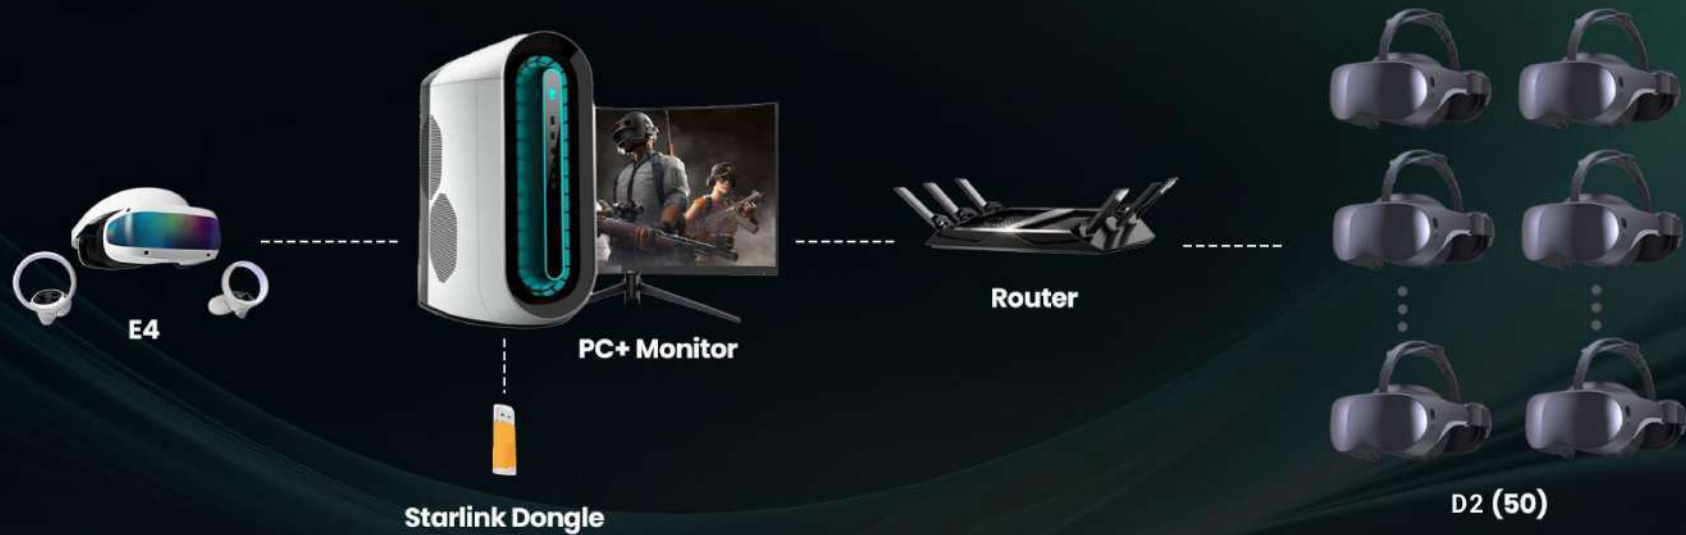

Group Training Solution

- ◆ The Group Training System is designed for educational purposes. It centers around a computer or tablet and can simultaneously connect with up to **60** individual VR devices.
- ◆ Through the computer interface, the teacher selects and broadcasts specific course materials, while students access and view this curated content within their integrated VR devices.

Advanced Group Training Solution—Starlink

Using a wireless LAN, Starlink can mirror PCVR content to 50 standalone VR devices, allowing users of these devices to experience the PCVR view in **first-person**. Compared to the traditional 'one-to-many' approach, the Starlink solution cuts costs by **50%-70%**.
